INSTITUTION	University of Salford

Skills and Competences

COMPUTER SKILLS AND COMPETENCES

JavaScript, jQuery, HTML, CSS, Bulma, BootStrap, Git

PROJECTS AND OTHER WORK

Friends Night In – Phase One Project

Created a web application that utilises API keys to gather data. Focussing on a mobile-responsive site, user's are able to search for a random recipe and movie by entering a singular ingredient/word to the search bar. There search terms are saved to local storage and presented as buttons to re-visit.

LANGUAGES USED

JavaScript, jQuery, Bulma, HTML, CSS

Weather Dashboard

Created a web application that utilises API keys and Local Storage to gather information on the weather. User's can search the current and next five-day weather forecast for any city in the world. The API key gathers information on the forecast while the local storage stores the search and appends to the page in the form of a button.

LANGUAGES

Javascript, jQuery, BootStrap, HTML, CSS
